

Cashco's emphasis is best stated by our principle: "Innovative Solutions". The keystone of this commitment is to deliver quality products in a time frame to meet your needs.

Regulators – Reducing, Back Pressure, Cryogenic, High Capacity and Exotic Materials
 Replacements for F-F of 14" Regulators
 General Purpose Control Valves
 Globe Rotary Control Valves
 Teflon Lined Globe Control Valves

Sanitary Control Valves
 Tank Blanketing and Vent Valves
 Pressure / Vacuum Vents
 Detention Flame Arrestor
 Tank Manifold
 Thermal Trip Valves
 Temperature Controllers (Pneumatic)

Specialist in Critical / Severe Service Globe Valves and Field Performance Services over 50 years.

Severe Service Global Valves (Any Size / Rating)
 Engineered to Specification, Inexpensive and Short Delivery
 Cryogenic / LNG Valves (-196 Deg. C)
 Choke Control Valves
 Multi Labyrinth Trims (MLT)

Combination Trims (MLTW/CC)
 HP/LP Turbine Bypass Valves
 JT Valves
 General Purpose Valves
 Critical Valve Performance Services
 Valve Asset Management Services
 Retrofit of any Valve of any type

BALL VALVES

We supply ball valves with Electro Hydraulic or Electric or Pneumatic actuators from prominent manufacturers such as **AST SpA, Perar and ValvSource.**

Ball Valves (2"-64", ANSI 150 - 2500, API 20000)
 Ceramic Ball Valves
 Critical Service Ball Valves
 Welded End / Top Entry Ball Valves

Double Ball Valves
 Fire Proof Valves / Systems
 Cryogenic and Sub-Sea Ball Valves
 Double Block & Bleed

Specialists in High Performance Butterfly Valves for severe service conditions.

Quarter Turn Metal Seat – TOGV (Triple Offset Gated Valve)
 Quarter Turn Metal Seat – TOSV (Triple Offset Segment Valve)
 Resilient Seated Valves – T & C Series

Quarter Turn Metal Seat – TOGV (Triple Offset Gated Valve)
 Quarter Turn Metal Seat – TOSV (Triple Offset Segment Valve)

Tai Milano S.p.A. has been manufacturing Safety Valves since 1962. Products are certified with ASME, GOST-R, DNV and PED.

Applications: Gas, Steam and Liquid
 Spring loaded or Pilot operated with or without bellows
 Face to Face Conformity to API 526
 Materials: Carbon Steel, 316SS, Aluminum and Exotic Alloys

Set pressure: 0.14 to 7540 psi (0.01-520 BarG)
 Temp.: -267 to 621°C
 Orifices: B, C, D, E, F, G, up to T
 Flanged connections – 1" to 14"

Precision Instrument Valves & Manifolds are the new standard for the finest differential pressure instruments, valves and manifolds.

Isolation/Hand, Bleed Valves
 Multi Port Gauge Valves
 Venting Gauge Valves
 Process Valves

Mono Flanges / Combo Flanges
 Deepline Flanged Valves
 Distribution Air Headers
 Differential Pressure Gauges

EnerFest, Inc.

SUITE 630, 440 – 10816 MACLEOD TRAIL S.E.
 CALGARY, ALBERTA, CANADA T2J 5N8
 Tel.: (403) 261-8008
 Fax: (403) 775-4232
 www.enerfest.ca

EnerFest, Inc. is an energetic and progressive company providing value added solutions for our clients.

DVG Automation specializes in providing actuator solutions.

Electro-Hydraulic Actuators
Hydraulic Actuators (Linear & Quarter turn)
Pneumatic Actuators (Linear & Quarter turn)
Gas over Oil Actuators

Electric Actuators
ESD System
Customized Actuation Solutions

Control Solutions and Accessories for Valve Automation.

Limit Switches
Switchbox/Junction Box
Position Indicators
Manual Override Gears

Fieldbus Products
Boosters, Lock-up / Quick Exhaust Valves
Positioners
ASME Volume Tanks

Gayesco is a global leader in temperature measurement.

Reactor Thermometry (Flex-R & Flex-O)
Fire Heater Temperature (Refracto-Pads & Xtracto-Pads)

Flames Rods
Thermocouples and RTD's
Ski Slope Thermocouples & RTD's for Furnace Tube Skin Applications

Technology and Heart

Flow and Level Measurement Solutions.

Metal Tube Variable Area Flow Meters (Rotameters)
Direct Reading Flow Meters

Spring Balance Tank Gauges
Servo Operated Tank Gauges
Purgemeters

Design and manufacture of flow measurement elements in accordance with ISO, ASME, DIN, BS and UNI since 1987.

Annular chamber sets
Meter runs
Flow nozzles
Venturi tubes
Multi stage pitot tubes

Orifice plates and flanges
Custom flanges
High Pressure venturi tubes to ANSI 2500
ISPESL and IBR certified flow meters
Graylock and Securamax couplings

Magnetic Liquid Gage provides one of the safest and most economical solutions to measure and control your level measurement needs.

Magnetic Liquid Level gauges
Magnetostrictive Transmitters
Magnetic Point Level Indicators
Magnetic Sight Flow Indicator
Float Switches

Lube Oil Indicators
Tank Bridals
Seal Pots
Vessels / Tanks

Aquatrol manufactures ASME certified safety valves, Section I (V) and VII (UV) rated, for steam, air and gas applications as well as a full line of liquid relief valves for Municipal Power, Steam and Water Filtration System.

Kenexis assists our process industry clients make plants safer and more productive by helping to ensure the integrity of instrumented safeguards such as Process Hazards Analysis (e.g., HAZOP) and Safety Instrumented Systems.
